

Landing Location of Horizontal Projectile

Step 1: Fill all your values into the picture below

Step 2: Fill in this chart to keep track of the variables that you know and the variables that you need to find. Then find the time of flight and the landing location of the projectile. Show your work neatly below

Horizontal	Vertical
Δx	Δy
v	v_i
t	v_f
	a
	t

Step 3: Enter your answers into the program to make sure you did everything correctly
